

## IMPORT, DISTRIBUTION AND SERVICE

Reputable, High Quality European and US Brands - Equity Investment Opportunity

With a proven and ongoing record of growth in their market sector the board has recently taken a range of strategic decisions including this one: the offering of equity for those who seek to invest in successful private NZ companies.

Opportunities to secure shareholder equity in a successful private NZ company is very rare indeed, so why this business? The plan is to fund further growth and in return to offer clearly demonstrable dividend yield and ROI on funds invested.

The company has nationwide distribution channels throughout the country and is successfully promoting leading European and US designed and manufactured products into the New Zealand market. Their focus is on the latest great design, technological innovation and full technical/service support.

The company is regarded to be one of New Zealand's most significant distributors in their sector.

Promotion of leading-edge products from highly prestigious brands both American and European along with dedication to developing strong long-term customer relationships have all contributed to the success of this company.

With authorised dealers and distributors throughout the nation, the company maintains strong year on year growth and increasing market share.

An Information memorandum is available for qualified interested persons and their professional advisers.
