CONCRETE SERVICES - (CML 11071)

Commercial/Industrial and Private projects. Pipeline of Work.

Successful Concrete Services business with a 50/50 mix between Commercial/Industrial and private clients. The company has a well-established presence and a consistently profitable performance.

Current YTD performance combined with a substantial level of quoted work is indicative of continuity of performance and good returns to the shareholders.

With very little concrete works being undertaken for largescale subdivision builders and developers, the business does not appear to be heavily impacted by the current downturn in that sector of the building industry.

With ongoing quote requests from existing industrial clients for further works along with a high number of new private (and commercial) concreting projects suggests good results for the current FY.

CONSIDER THE FOLLOWING:

- PROFITABLE Business
- PIPELINE of works confirmed and strong level of quoting response activity
- Commercial/Industrial and Private Clients mix
- WELL-ESTABLISHED with EXPERIENCED Staff and SUPERVISION in place.

ASKING PRICE \$740,000 (incl stock, plant and intangible assets)
